In an effort to improve the consistency of delivering our students on time to school, an administrative meeting was held to develop and plan a transportation schedule.

As a result, it was unanimously decided that a 3-tier plan would work best for Greenville Public School District. This plan has elementary schools in the 1st tier, middle schools in the 2nd tier, and the high school in the 3rd tier.

Bus times are listed above along with the 1st bell, the tardy bell, and the dismissal times.

We hope that with the consistency of the delivery of students, it will help us accomplish goal 1 – increase student achievement by maximizing instructional time and goal 2 – safely delivering students to school.
